ELSEVIER

AQUATIC TOXICOLOGY

Contents to Volume 34

No. 1 — January 1996

C. Hanstén, M. Heino and K. Pynnönen (Finland)
Viability of glochidia of *Anodonta anatina* (Unionidae) exposed to selected metals and chelating agents 1

M.C.P. Absil, M. Berntssen and L.J.A. Gerringa (The Netherlands)
The influence of sediment, food and organic ligands on the uptake of copper by sediment-dwelling bivalves 13

E. Dopp, C.M. Barker, D. Schiffmann and C.L. Reinisch (Germany, USA)
Detection of micronuclei in hemocytes of *Mya arenaria*: association with leukemia and induction with an alkylating agent 31

P.M. Campbell and R.H. Devlin (Canada)
Expression of CYP1A1 in livers and gonads of Pacific salmon: quantitation of mRNA levels by RT-cPCR 47

P.S. Ross, R.L. De Swart, H.H. Timmerman, P.J.H. Reijnders, J.G. Vos, H. Van Loveren and A.D.M.E. Osterhaus (The Netherlands)
Suppression of natural killer cell activity in harbour seals (*Phoca vitulina*) fed Baltic Sea herring 71

Announcement 85

Erratum 86

Guide for Authors 87

No. 2 — February 1996

F.B. Jensen (Denmark)
Uptake, elimination and effects of nitrite and nitrate in freshwater crayfish (*Astacus astacus*) 95

D.V. Lightner, K.W. Hasson, B.L. White and R.M. Redman (USA)
Chronic toxicity and histopathological studies with Benlate®, a commercial grade of benomyl, in *Penaeus vannamei* (Crustacea: Decapoda) 105

P. Venier and S. Canova (Italy)
Formation of DNA adducts in the gill tissue of *Mytilus galloprovincialis* treated with benzo[a]pyrene 119

E.P. Gallagher, P.L. Stapleton, D.H. Slone, D. Schlenk and D.L. Eaton (USA)
Channel catfish glutathione *S*-transferase isoenzyme activity toward (±)-*anti*-benzo[a]pyrene-trans-7,8-dihydrodiol-9,10-epoxide 135

A.C.D. Bainy, E. Saito, P.S.M. Carvalho and V.B.C. Junqueira (Brazil)
Oxidative stress in gill, erythrocytes, liver and kidney of Nile tilapia (*Oreochromis niloticus*) from a polluted site 151

C.H. Jagoe, A. Faivre and M.C. Newman (USA)
Morphological and morphometric changes in the gills of mosquitofish (*Gambusia holbrooki*) after exposure to mercury (II) 163

No. 3 March 1996

M.E. Unger and G. Roesijadi (USA)
Increase in metallothionein mRNA accumulation during Cd challenge in oysters preexposed to Cd 185

R.B. Spies, J.J. Stegeman, D.E. Hinton, B. Woodin, R. Smolowitz, M. Okihiro and D. Shea (USA)
Biomarkers of hydrocarbon exposure and sublethal effects in embiotocid fishes from a natural petroleum seep in the Santa Barbara Channel 195

H. Bleau, C. Daniel, G. Chevalier, H. van Tra and A. Hontela (Canada)
Effects of acute exposure to mercury chloride and methylmercury on plasma cortisol, T3, T4, glucose and liver glycogen in rainbow trout (*Oncorhynchus mykiss*) 221

J.G. McHenery, C. Francis and I.M. Davies (UK)
Threshold toxicity and repeated exposure studies of dichlorvos to the larvae of the common lobster (*Homarus gammarus* L.) 237

A. Haaparanta, E.T. Valtonen, R. Hoffmann and J. Holmes (Finland, Germany, Canada)
Do macrophage centres in freshwater fishes reflect the differences in water quality? 253

No. 4 April 1996

M.M. Grundy, M.N. Moore, S.M. Howell and N.A. Ratcliffe (UK)
Phagocytic reduction and effects on lysosomal membranes by polycyclic aromatic hydrocarbons, in haemocytes of *Mytilus edulis* 273

L.G. Parks and G.A. LeBlanc (USA)
Reductions in steroid hormone biotransformation/elimination as a biomarker of pentachlorophenol chronic toxicity 291

B. Dahl and H. Blanck (Sweden)
Pollution-induced community tolerance (PICT) in periphyton communities established under tri-*n*-butyltin (TBT) stress in marine microcosms 305

M.J. Anderson, M.R. Miller and D.E. Hinton (USA)
In vitro modulation of 17-β-estradiol-induced vitellogenin synthesis: Effects of cytochrome P4501A1 inducing compounds on rainbow trout (*Oncorhynchus mykiss*) liver cells 327

J. Ritterhoff, G.-P. Zauke and R. Dallinger (Germany, Austria)
Calibration of the estuarine amphipods, *Gammarus zaddachi* Sexton (1912), as biomonitors: toxicokinetics of cadmium and possible role of inducible metal-binding proteins in Cd detoxification 351
